TÖZOLTO
PHOENIX

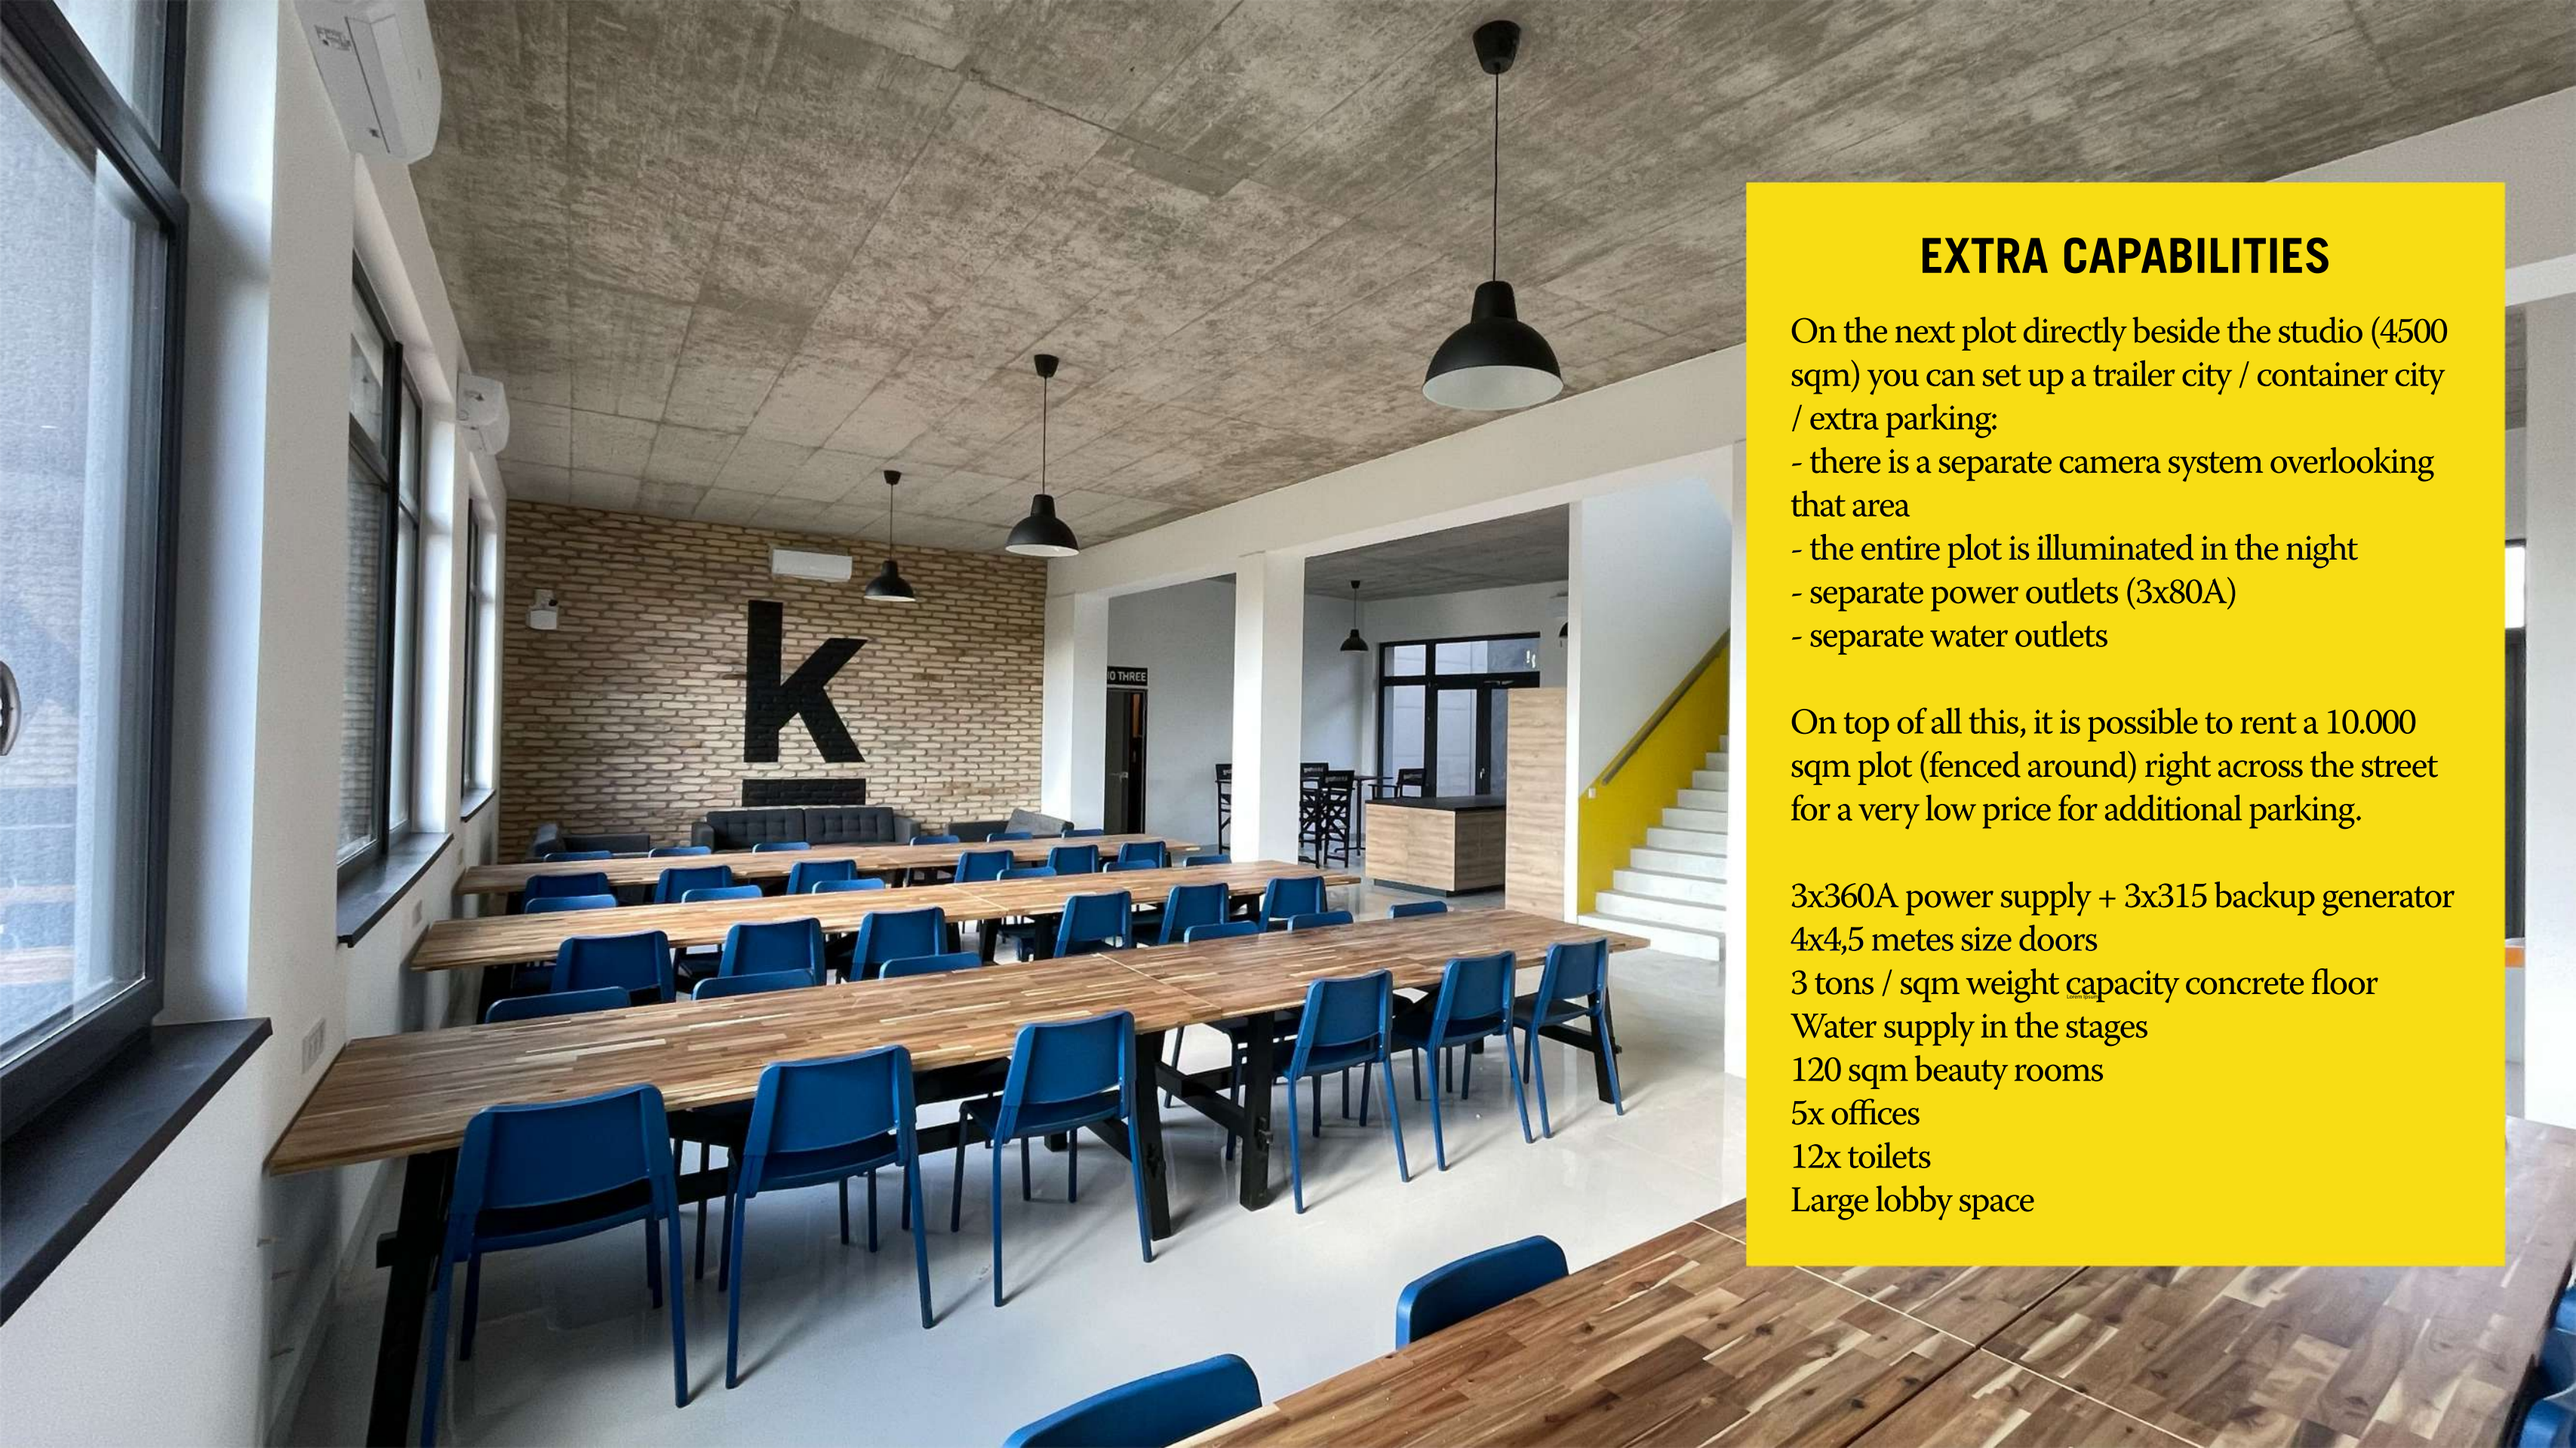

STAGES 3. & 4.

KEY FEATURES

III. Soundstage - 700 sqm - 9,5 m height
IV. Soundstage - 1400 sqm - 14 m height
Sperate workshop area - 250 sqm

- the stage is located in a quiet area
- the location is Budapest (in city) - so there is no need for extra travelling costs compensation for crew and overtime fees
- public parking is available right next to the studio for approx 80 cars for free on the street
- Remote controlled fire alarm system installed on the entire premises covering every room and stage
- Security camera system in all public areas with direct access for the production
- Proxy card access system for door entry
- GSM remote controlled main gate for the studio site (authorized telephone numbers can open and close with a call)
- SOLAR POWER - 74kw feeding either directly the local consumption or pumping back to the public power network.
We give the solar production entirely for free for the production, as green transformation is a priority for our company! For last summer's production ("Killers Game") it ment over 10.000 EUR savings on power bill in approx 3 months!

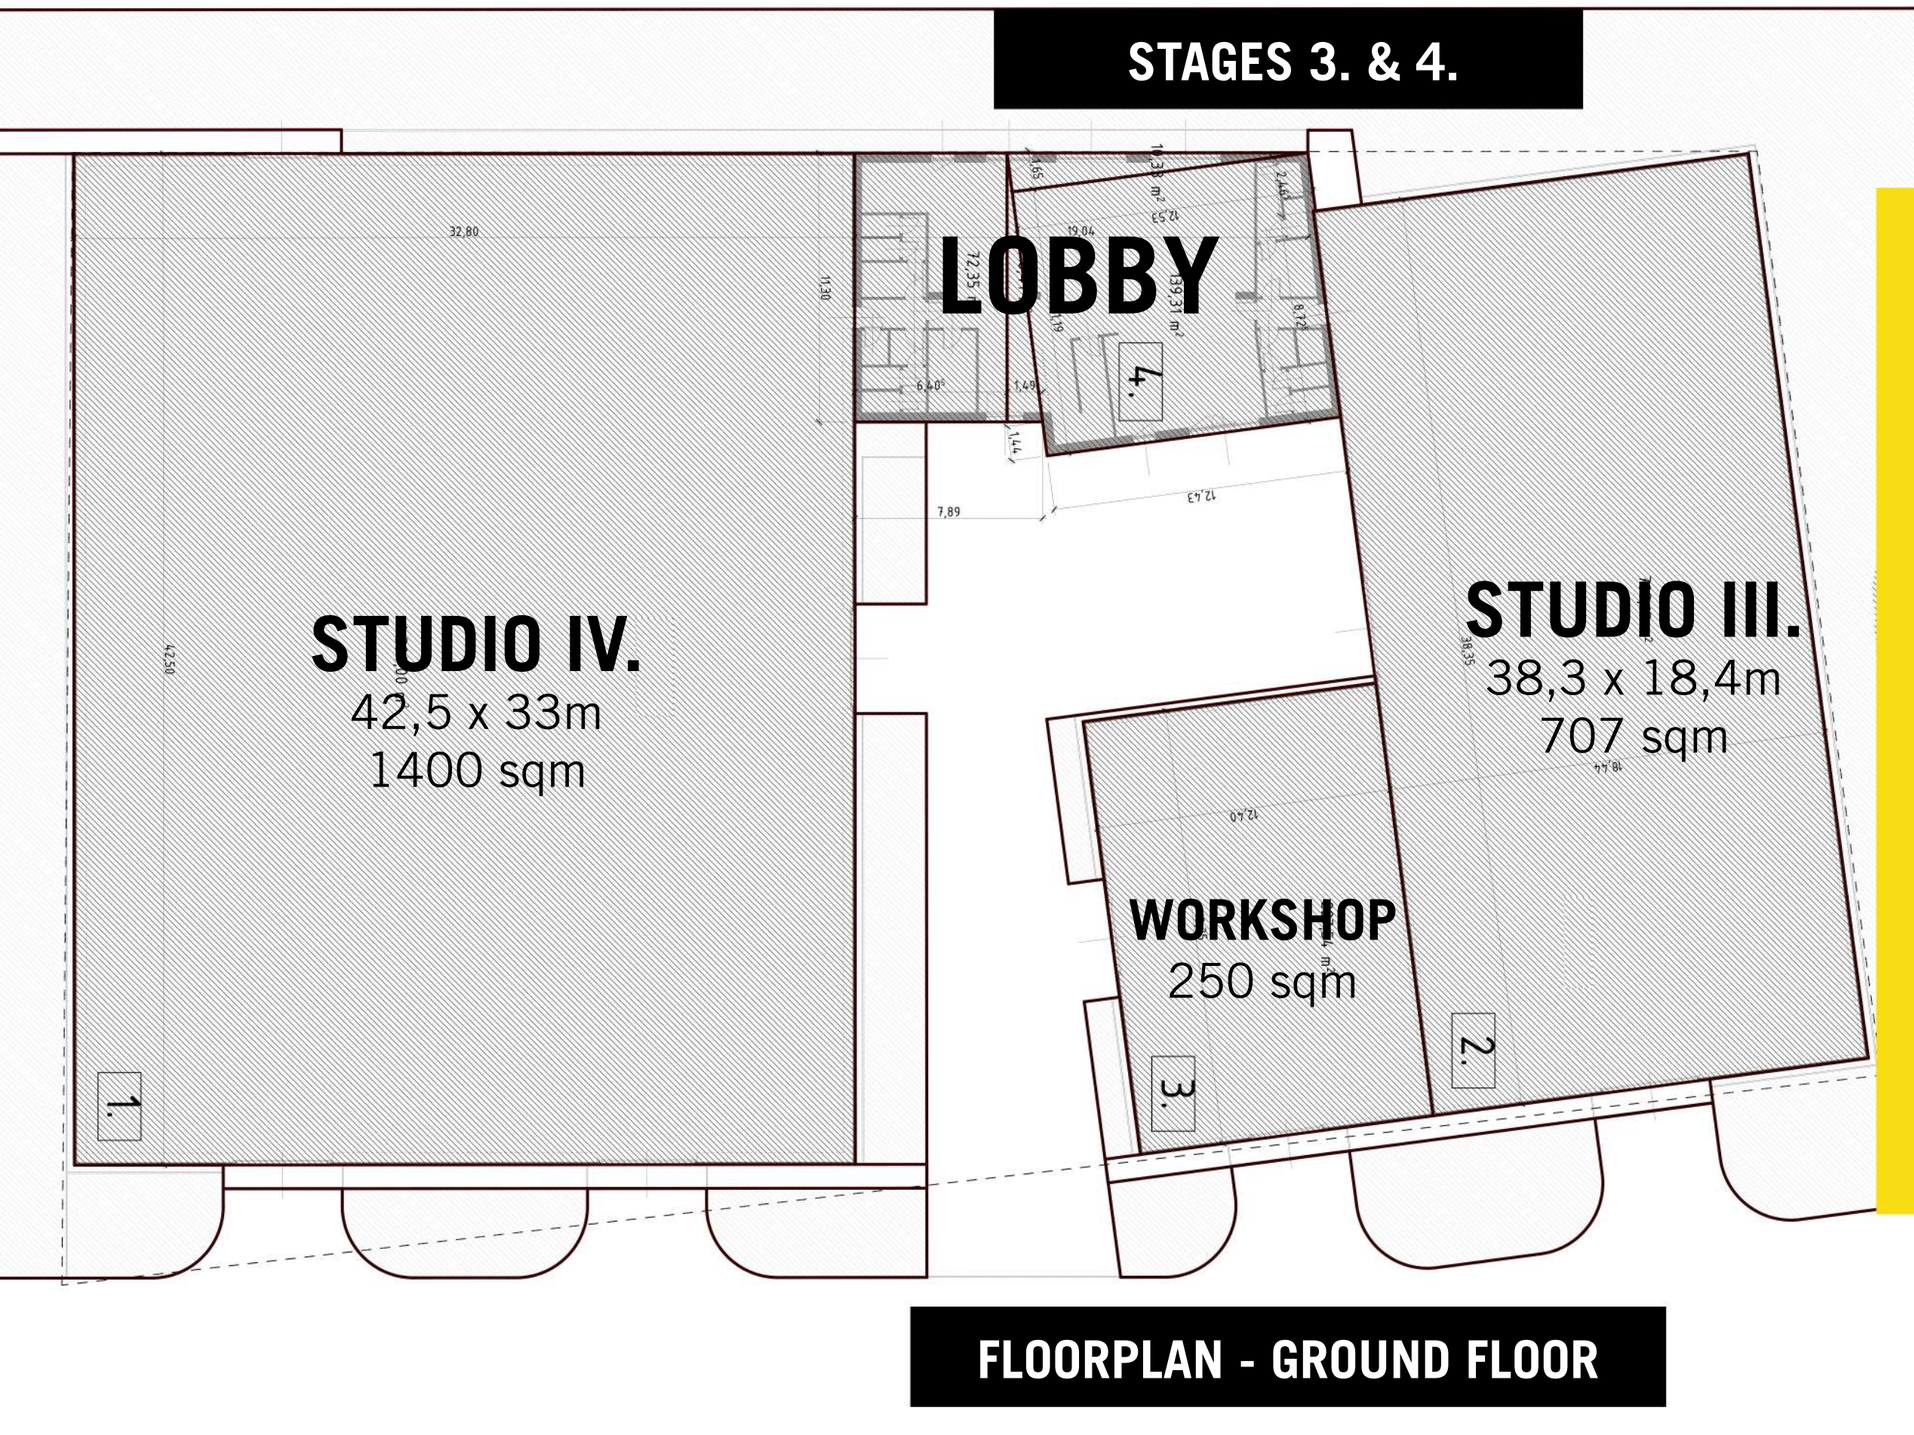

EXTRA CAPABILITIES

On the next plot directly beside the studio (4500 sqm) you can set up a trailer city / container city / extra parking:
- there is a separate camera system overlooking that area
- the entire plot is illuminated in the night
- separate power outlets (3x80A)
- separate water outlets

On top of all this, it is possible to rent a 10.000 sqm plot (fenced around) right across the street for a very low price for additional parking.

3x360A power supply + 3x315 backup generator
4x4,5 metes size doors
3 tons / sqm weight capacity concrete floor
Water supply in the stages
120 sqm beauty rooms
5x offices
12x toilets
Large lobby space
